

Understanding ODOR

There's one thing you can't hide or ignore – and that's a bad odor in your home.

- Damp, musty, mildew smells come from high humidity
- Odors invade clothes, furniture, blankets, and even your furnace filter
- Smells are a symptom that something is wrong and needs to be addressed
- It won't get better on its own; these odors can often also spoil the air in the home above
- Fragrancespraysandothersimilarmethods only mask the odor or make it worse

The best way to truly get rid of smelly home odors is to remove the moisture from your living spaces. Let an Aerus Certified Smell Buster Specialist help you today!

Step 1

Quick & Easy Odor Removal

With our proprietary Hydroxyl Blast Treatment, odors are typically removed in an hour and it's entirely safe and effective.

The Aerus Hydroxyl Blaster features ActivePure® Technology that works quickly and effectively to remove pathogens, air pollution, VOCs, surface contaminants, pet dander—resulting in a cleaner, healthier and odor-free home. It's the perfect solution for homeowners.

Step 2

Dehumidify Your Home

Humidity inside your home is a breeding ground where bad odors can thrive. Relative humidity levels of 40% or higher are optimal conditions for a variety of harmful microorganisms, which will then grow and create unpleasant odors.

Aerus Certified Smell Busters Specialists can install a variety of superior dehumidification systems specifically designed for your home.

Step 3

Purify Your Air

Our advanced air purification systems provide ongoing fresh, clean air and feature ActivePure® Technology, which is the only air and surface purification system that kills 99.99% of all contaminants both in the air and on the surfaces.

ActivePure® Technology is recognized as the only Certified Space Technology in its class by the Space Foundation. This amazing technology is entirely safe and amazingly effective at purifying both the air and surfaces in your home.
