

WHITEWING SuperDry 90

WHITEWING SUPERDRY 90

A smart, self-monitoring system that uses real time performance data, automatically calculating ideal operating parameters such as fan speed and defrost cycle duration. The WhiteWing SuperDry 90 dehumidifier features a built-in digital humidistat for accurate maintenance of your relative humidity setting and is capable of extracting in excess of 15 gallons of moisture per day, ensuring a healthy relative humidity is achieved. A built-in handle and extra-large wheels makes moving the WhiteWing SuperDry 90 up and down stairs very easy and a rear-mounted power cord and pump hose wrap keeps those items conveniently stowed away.

BENEFITS

- Dries areas up to 3,000 square feet
- A super-powerful 400 CFM fan creates strong circulation for air drying
- An internal pump is capable of pumping water up to 12 feet in height for easy removal
- Digital humidistat with smart-touch buttons, drain indicator, key lock and timer
- ETL and CE listed

SPECIFICATIONS

Power Consumption	627 watts
Air Flow	400 CFM
Water Removal Capacity	Up to 15 gal. per day
Energy factor (L/kWh)	2.45
Pints/ kWh	5.17
Operating Temperature Range	33°F to 95°F
Noise Level	<56dbA
Refrigerant Type	R410a
Dimensions	21"W x 31"H x 19.7"D
Coverage Area	3,000 sq. ft.
Weight	92 lbs.
Warranty	1 year

FEATURES

- Built-in handle and large wheels make this dehumidifier easy to maneuver
- A long 18 ft. power cord allows you to access electricity at great distances
- A built-in recessed hose wrap keeps your power cord and drainage hose out of the way and free from kinks
- An internal pump is capable of pumping water up to 12 feet in height for easy removal
- The included water pump hose is 20 feet long
- Features auto-restart in the event of a power failure
- Includes a washable filter
- Hot gas defrost system
- Internal Pump
- Quiet Operation
